

TRANSPARENCY FORM

Your hair transformation won't end once you leave the salon. Not only will you have a great new style and uplift of confidence, you may also need to change the way you care for your hair to ensure your new look stays looking its best!

Don't be in the dark, have a read...

CONSULTATION: It is important we know all about your hair and its history so we can offer the best advice and recommendation on colours/styles/products and to keep you safe in the seat and your hair looking it's absolute best. Fubar will only recommend products that we know, trust and use in the salon ourselves.

BLEACH: Bleach is a corrosive product. We dance on a fine line between condition and lift. This may mean that your stylist will constantly be checking on the condition of your hair to ensure we don't push it too far. During your consultation, your stylist will be honest with you if we feel the level of lift you want will cause too much damage to your hair and we will work with you to create a journey that will lead you to your desired end product.

FADE WITH PERMANENT, SEMI PERMANENT COLOURS/TONERS AND DIRECT DYES:

Many vibrant colours are not permanent and this unfortunately means it is difficult for us to predict how long they will last, we recommend to 'top up' your colour at home. Your stylist will inform you of the maintenance required for your personal service and advise you to use the same product if you want to top up your colour at home. Using other products may cause a reaction between the chemicals or not achieve the desired result.

STAINING: Direct colours leave a light residue on pretty much everything – Personal items in your home that come into contact with your hair may be at risk of colour transfer. These most commonly include bath robes, pillows, towels and other household objects. As much as we try to avoid it, hairline staining is very common.

SHAMPOOING/CONDITIONING: Your go-to shampoo may not be suitable for your new look! Your stylist will recommend products to use in the aftercare of your hair that have been used and trusted by Fubar for many years. Years of experience from team Fubar means they know each colour and it's complimentary products well.

STRUCTURAL INTEGRITY: Big (or small!) transformations can take their toll on your hair. Your stylist may recommend a treatment with your colour to help the condition of your hair. After applying in the salon, it may be recommended for you to continue to use these treatments at home to give your hair the nutrients it needs and help your transformation to last longer.

MAINTENANCE APPOINTMENTS: Everybody's hair is unique! So, your upkeep may vary slightly. Your stylist will recommend the best time for you to book a maintenance appointment
